FROM THE PRESIDENT

ABOUT DRO

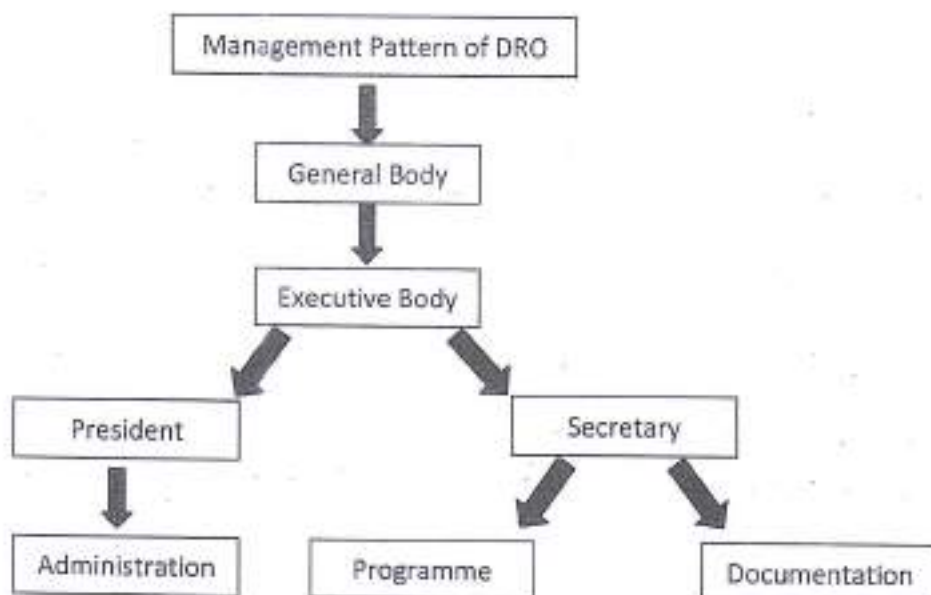

For reaching the sustainable development in and around Nayagarh district in the state of Odisha, DRO was established in 2014 as a non-registered organization. The organization got registered on 2016 under SRA XXI of 1860 Act & IGR Act Cuttack bearing registration no 2038/ 288 dated 22.02.2016 At present DRO is working in 16 Villages of Daspalla Block covering 10GPs in Nayagarh District, Odisha.

MY VIEWS

I am extremely happy to present this annual report of our organization DRO for the year 2021-22. DRO is a grass route organization working in Daspalla block. The organization completed 08 year of age. So, its organizing capabilities and the perfectness of the organized programmes may not be significant. But the office associates tried their level best to make the programme success.

We got the support from the PRI members, Govt. officials, NGO friends, Press Reporters, Chairman NAC, Panchayat Samiti Daspalla, BDO, Daspalla, M/O I/c Madhyakhanda PHC, SHG members, BSSO Daspalla, DSSO Nayagarh and our founder members, executive body as well as general body members who are provided their support to serve them better.

Dr. Prafulla Kumar Dash
PRESIDENT

A brief Area Background

Nayagarh District is a tribal dominated and the concentration of habitation is the rural areas. Nayagarh District is one of the costal districts of Odisha predominately inhabited by the tribal and economically weaker section. Nayagarh District at present face different challenges and there are others in the rural set up also very poor and vulnerable.

Nayagarh District is known for its draught, distress, destitute and migration. Although poverty is widespread in Odisha the situation of the District need special attention owing to the recurrence of cyclone, dearth of food and lack of employment for the disable, poor and down trodden. The situation can be summarized very worst where majority of the backward community dwells with the pathetic condition under develop syndrome is unfortunately converged in the accentuating the deprivation and exploitation of rural mass leading to starvation and mass exodus.

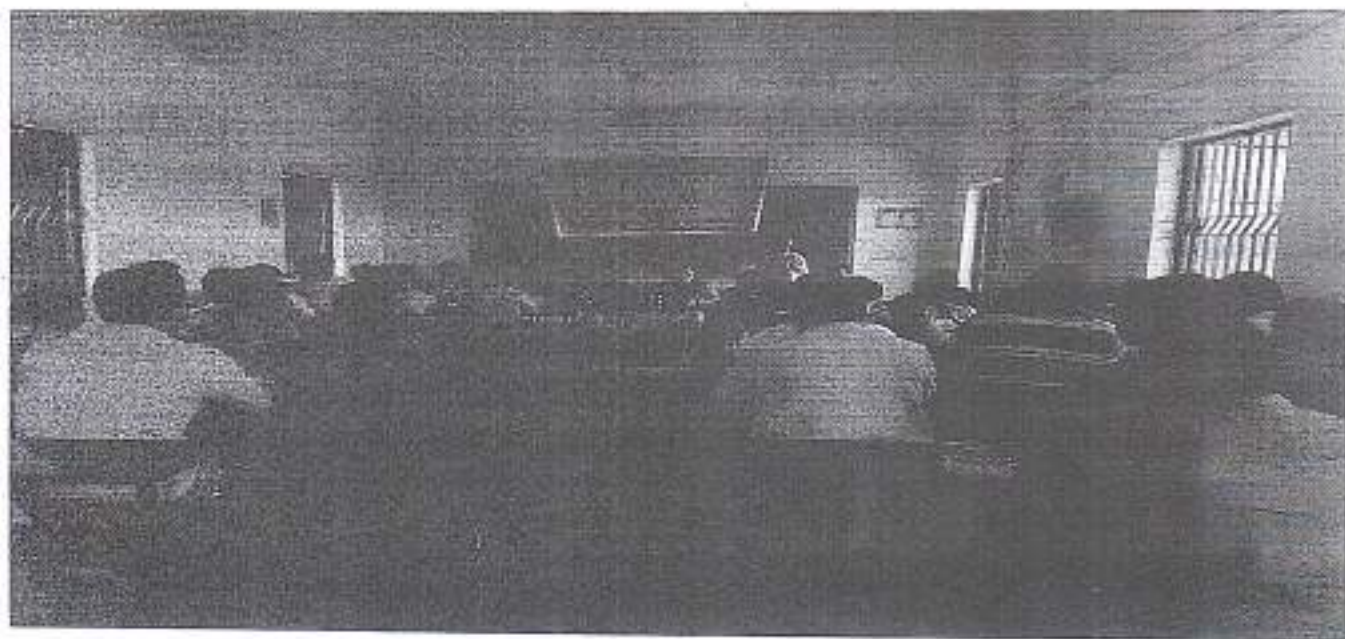

The average land holding among the people is 0-1 acre (this does not necessarily mean have legal holding). The local money heavily depends on agriculture, forest and wage labor. Due to the exploitation both socially and economically the tribes are characterized by extremely low level of literacy and pre agricultural level of technology and lac behind the rest of the society. The tribal's are nutrition deficiency in children anemia is widely prevalent especially in pregnant women, hematological disorders, sickle cell, seasonal disease like diarrhea, malaria, skin diseases, goiter etc. are common disease. Overall education status of the area is very poor in the district. The literacy of Daspalla block is 87% particularly among the tribal which is one of the lowest (37.09%) being the district average. In the above backdrop, DSO has strived hard to make the stakeholders aware of their status and actively participate in their development.

Demographic profile with population

Name of the District	Name of the Block	No. of GPs	No. of Villages	Target Population			Total Families
				SC	ST	GEN	
Nayagarh	Daspalla	10	116	5876	6930	5212	1801

Development intervention of DRO

The important aspect of DRO to work with communities is ensuring the sustainability of disable development interventions initiated. Enabling creation of community level institutions, process, approach, mechanism and capacity building of the stakeholders are vital elements in the process of human and institutional development. We focus to work based on the local context as follows.

Community Health	Preventive and curative aspects of community health system, T.B, detection, community health care and sanitation, immunization awareness.
HIV/AIDS	Awareness on the killer disease, Counseling.
Natural resource	Land, water & forest resource management, diversification of livelihood Management options through skill building based on locally available NRM.
Sustainable	Stresses on organic farming, developing compost pits
Micro Finance	Formation of Self Help Group (SHGs) for micro credit, micro enterprises and linkage with financial institutions.
Women Empowerment	Gender integration in all development Programmes, focuses on gender justice, training on agarvati making, skill development training etc.

Cultural Programme

Strengthening People's organization

Information, Education
& Communication

Developing IEC materials & disseminating among the stakeholders for more awareness in the programme areas, collection of relevant Information from primary & secondary sources, reporting & publication.

Policy & advocacy

Grass root level Policy & advocacy.

Highlights of Activities 2017-18

1. Ensuring Health Rights-based Activities.

Right-based activities are undertaken with a convergence of efforts where people's Organization, PRI, youth Clubs, Professionals join together to organize rallies and demonstrations. Ignorance of health hygiene interlines lack of awareness on available health facilities leading to non utilization of the health infrastructure and inaccessibility of the facilities are primary reasons of poor health condition of the people. Therefore awareness generation and promotion of demand for securing health entitlement have been the core of DROs work in its programme on health.

2. Awareness on HIV/AIDS challenges

HIV/AIDS has posed a great challenge for all of us in order to create mass awareness among the people on HIV/AIDS. DRO sought to make best use of the traditional method of information dissemination . Awareness generation and information dissemination on HIV/Aids has been done through cultural programmes. As a result of the effort, the taboos and inhibition for discussion on HIV/AIDS in the community has own away.

3. Micro Finance through SHGs

In the changing context the goal is to make micro finance a dispenser not just of credit but a verity of social goods and service to the rural poor. They have manifested their feeling of self-worth and self-dignity, behavioral changes, communication skill, decision making capacity and above all participation in the life of the community. Livelihood, diversification in linking up with increased incomes and savings are critical to reducing vulnerability of rural communities. In all the programme villages, DRO supports to formation and strengthening of SHGs. The basic premise is to encourage thrift among the women disables link up with the financial institutions. However these groups provide a platform for bringing women together to discuss issues of common concern. Over the time women gain confidence to articulate their concerns even in the large village meetings.

3.1 Formation of Self Help Group

From the inception DRO has given stress on formation and strengthening of self-help groups. Group formation gather momentum gradually as socio-economic impact of involvement as stated to become visible. Meanwhile, the organization has formed 11 SHGs and enhanced the capacity of its functionaries to work in micro finance.

4. Women Empowerment

DRO has taken care to include gender dynamics in various aspects of its works since beginning of the organization. Women have been promoted and proactively motivated to participate in all the programmes and activities. Especially in the process of networking efforts have been made to make women part of the critical decision making structures.

5. Artisan Development

Keeping in mind the needs of the rural artisans and to prevent their exploitation by the middle-men, DRO started campaign an awareness programmes and welfare of the carpenter and shoe maker artisans. Organized the artisans and make them in a SHG and now they opened a bank account at SBI Daspalla and making their transactions, inter loaning etc.

6. Promotion of women participation

In all the community organizations women are encouraged to participate in palli sabhas and gram sabhas as a result of which women participation in institutions of self governance has witnessed an increasing trend. Women participation has been promoted in all the programmes organized, conducted and facilitated by the organization (rallies, demonstration, celebration of conventional days, capacity building training etc. Women participation in the development has rise to a level where women have been able to break the stereotype of division of labor in undertaking skilled job like Agarvati, small business etc.

QUANTITATIVE PROGRESS				
Programme activities - Gender Development	No. of programme	Members involved		
		Men	Women	Total
No. of women headed households Training on vocational education	04	—	20	20
No. of women headed households Linked up with PRI schemes/Provisions	01	—	10	10
Organized gender sanitization Programmes	01	12	10	22
Training among gender promoters	01	10	08	18

7. Institution Building

The orientation programme laid emphasis on the process of resource mobilization, creation of second-line leadership, independent programme management, planning, monitoring and evaluation in projects with consortium approach, network and alliance building. Common action on the basis of identification of the issues at the local level has been prioritized during the reported period. Common action has a two-fold purpose of ensuring the security of livelihood and broad base the people's Organization. Common action has been undertaken in the form of blooming the Young talents, Child Labor prevention programme. Promotion of youth activities, organizing cultural programmes, Games & Sports, awareness o minimizing Road Mishaps, NREGS Programme on Govt. scheme and women right, Rally on Land to landless, Awareness campaign on disables in the operational area.

8. Policy & Advocacy.

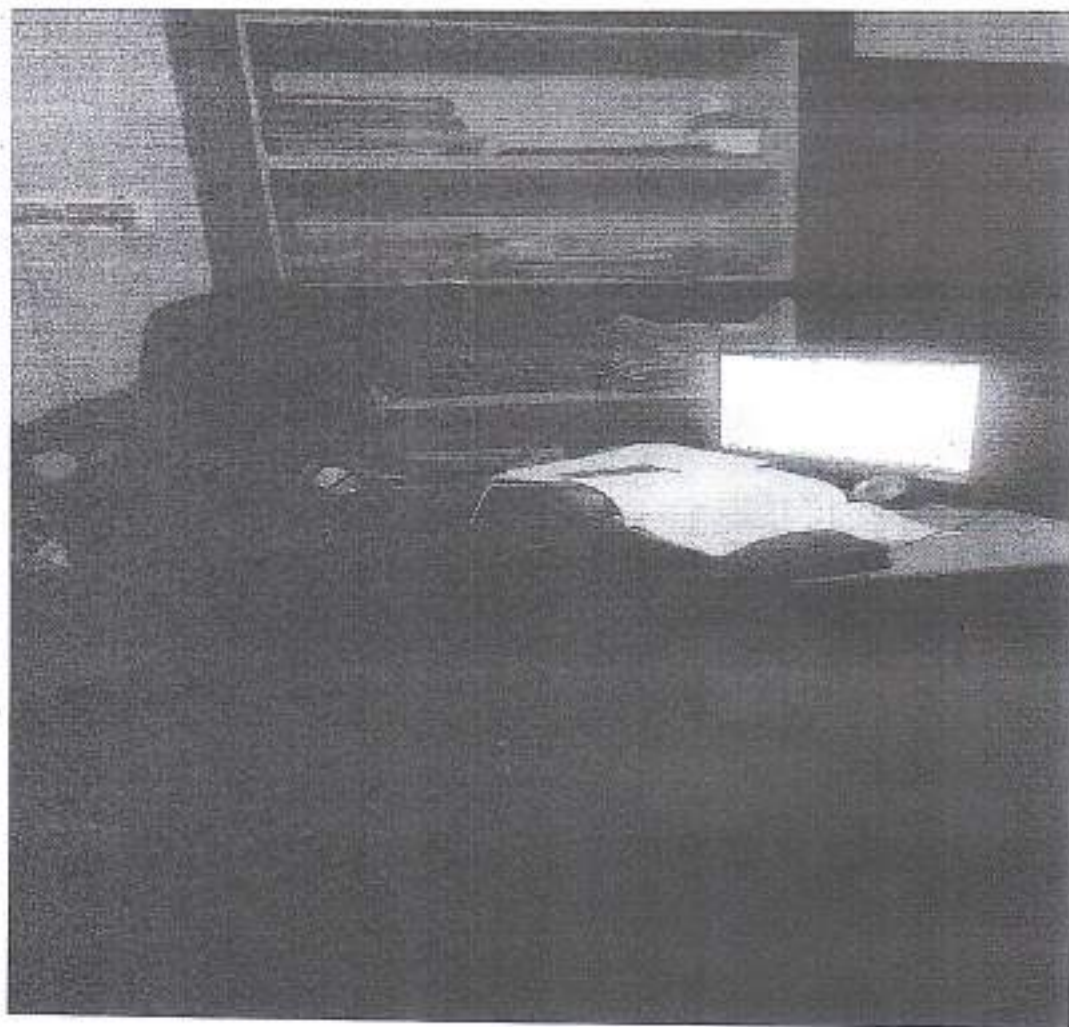

DRO believes in grass root level policy advocacy.. Lobby & advocacy activities above village level are almost exclusively taken care of at present by a relatively limited number of staff members within DRO as an NGO. Apart, the people's organizations which have been promoted over the years of our development journey also take a more pro-active role with regard to lobby and advocacy above village level. The village level committee, which is induced under various programmes have been stimulated and supported to play a pro-active role in this area.

9. Right to information.

The right to information has been recognized as basic human rights, which uphold the inherent dignity of all human beings. It forms the vital foundation of participatory democracy and is essential to ensure accountability and good governance. But there is a Lack of information among the general public regarding the mission vision as well as the privileges and facilities. Therefore the civil society organizations are yet to pull the best resources among the people to serve their goal. Collective thinking in this regard is yet to begin in this sector.

10. Documentation.

Process documentation is an ongoing activity of the organization. Particularly the organization is concentrated on impact study to understand the result obtained in terms of planning, and programmes. At present, the organization is concentrating on the areas of efficient Management of information System (MIS) so as to claim as sustainable information centre.

WHAT WE CAN DO

Providing financial support to voluntary organization like DRO is just one way how the individual, group and corporate sector can interface with social developments. DRO will help you identify a project which is best suited to your resources and interest. Adopt a special school in a remote village at a minimum cost of Rs.1,500.00 approximately per month. Rs 50/- rupees per day approximately. But your contribution provides education to a poor disable children. Get in touch to Secretary of DRO or mail to droodisha2013@gmail.com

ACKNOWLEDGEMENT

I take the opportunity to acknowledge the unqualified support of the local people in both monetary and material terms in absence of my external assistance. DRO feels both humble and honored to receive several distinguished dignitaries who found time from their busy schedule. I am thankful to District administration, Nayagarh and Block administration, Daspalla for their unconditional support. My special thanks to the Hon'ble DSSO, CDMO, Nayagarh for their better co-operation. My heartfelt thanks to all PRI members, NGO Chief Functionaries. Government Officials, Press Club Members, BSSO, Daspalla Block & dedicated executive members and staffs of our organization for their co-operation and dedication.

The year 2020-21 was an eventful year for DRO in which it undertook many meaningful programmes for the target group. In spite of many achievements we face certain difficulties the biggest hurdle for attaining the goal for the organization was lack of resources. Till the day the organization not received grant/fund flow neither from the State Government nor from the Central Government. Still it is continuing its programme in collaboration with local resources, donations from the individuals, membership fees etc. waiting for a open heart support for the better tomorrow.

Thanks a lot. Thanks you all.

Laxmidhar Behera
Secretary, DRO, Daspalla
